Career Objective

Aspiring Web Developer seeking opportunities to build real-world web and software applications. Passionate about learning backend systems, database integration, and scalable solutions while continuously improving communication and presentation skills.

Education

B.Tech in Computer Science 2024 – 2027 (Pursuing)
SVERI's College of Engineering (Autonomous), Pandharpur

Diploma Completed
Smt. Premalatai Chavan Polytechnic, Karad — Percentage: 90.46%

SSC (10th Grade) Completed
Maharashtra State Board — Percentage: 81%

Projects

Staff Scheduling App
MAD-Mobile Application Development
- Developed an Android-based application for professional communication between staff, HOD, and Principal
- Implemented staff attendance management with real-time tracking
- Enabled automated attendance report generation in Excel format
- Designed role-based access system for staff and administration

Expense Tracker
Python, MySQL
- Developed backend-driven expense tracker using Python
- Connected application with MySQL database
- Implemented CRUD operations for managing expense records

Ethical Email Tracking with Integrated Web Scraping for Cyber Security (In Progress)
Python, Web Scraping - HTML, CSS
- Developing a cybersecurity-focused system for ethical email tracking and monitoring
- Implementing web scraping techniques for data collection and analysis
- Aiming to enhance email security awareness and detection mechanisms

Skills

Technical Skills: Java, Python, HTML, CSS, Basic MySQL, SQL, VS Code
Concepts: OOP, Arrays, CRUD Operations
Soft Skills: Communication, Presentation Skills, Problem Solving, Adaptability, Team Collaboration

Achievements

Outgoing Student Award
Recognized for overall academic performance and contribution

DIPEX Project Competition - Second Runner Up
State-level innovation and project exhibition

MSBTE State Level Project Competition
Participant
